# Miloš Anđelković

## Full-stack Developer

## Profile

---

Experienced Software Engineer specializing in JavaScript/TypeScript and backend microservices. Skilled in designing scalable architectures, building high-performance APIs, and integrating distributed systems. Passionate about solving complex problems by combining clean code practices, system design principles, and

## Work Experience

---

### Full-stack Developer ( Frontend focused )

Straight Lines Inc – Remote

Sept 2023 – Present

- Built responsive, high-performance UIs with Angular (v10+) and React, using TypeScript, RxJS, and state management.
- Integrated frontend with backend APIs and implemented real-time features using WebSockets.
- Developed interactive 3D experiences with Babylon.js and integrated third-party platforms such as Miro.
- Contributed to backend services with Python (FastAPI) and optimized data handling with MongoDB.
- Ensured code quality through unit testing, peer reviews, and collaboration with cross-functional teams.

## Education

---

### Bachelor of Software Engineering

Faculty of Science - Kragujevac

Okt 2019 – Present
